“ I wanted to send my heart, love and prayers over to aunt Judy and Charlie. Little Charlie was always a good person and kind soul every time we met. It was an honor to have spent time with him throughout parts of my younger life. My childhood memories are very precious to me and it included some great moments that me, Angelina, and Charlie had growing up. Charlie and me had a lot in common when it came to our love for computers, video games and electronics in general. He was wiz when it came to anything technical with computers.
The worst thing about growing up is that sometimes your own road in life doesn't always cross paths with others that you grew up with and had very good memories together. Never means that love you have for someone leaves. Every time Charlie and I met, it had been many years sense we had last saw each before. He didn't care because I was his family and he didn't have one mean bone in his body. He always treated me with respect, never ever judge me, and he wanted to show me what he was into or the things that he loved. That's a very rare kind soul and I wish there were more people like him. Judy and Big Charlie did an amazing job raising him into a wonderful person. I will miss him dearly and I want to say that.
I love you Charlie, I miss you, and thank you for giving me some of the best memories of my life.
